

## VENDORS

The following is a list of vendors used by your neighbors and who have provided good service. While this is no guarantee that you will be pleased with the vendor, it is better than just picking a name out of the phone book or off the web. Any disputes that may arise will be handled between the homeowner and the vendor.

To add, remove or modify a recommendation, please send email to [boytongg@gmail.com](mailto:boytongg@gmail.com). Be sure the subject includes "Vendors". The body of the email should include:

Your name which will not be shown on this page  
your address which will be shown on this page  
the name, contact information, and type of work the vendor performs  
a one sentence explanation of why you are making the recommendation

Use this vendor list as a guide. If you have used one of these vendors and want to add a comment, please do so. That way, others will know the experience of multiple neighbors.
